ACADEMIC DEGREES

1977 Dr. Sc. "Convection in Stars", Doctoral Thesis

1984, Ph. D. "Convective Model of Flare Phenomena"

EMPLOYMENT AND ACADEMIC POSITIONS

1974-1975 Hungarian Oil- and Gasmining Company, Budapest, research assistant

1975-1977 Budapest University of Technology, scholarship student

1977-1981 Budapest University of Technology, researcher

1981-1984 Hungarian Academy of Sciences, Ph. D. student

1984-1990 Geophysical Department of the Lóránd Eötvös University, Senior Research Scientist

1990-2013 Konkoly Observatory of the Hungarian Academy of Sciences, Senior Research Scientist

HONORS AND AWARDS

World Futures. The Journal of New Paradigm Research. Member of the Editorial Board, 1993-

Noetic Journal. Member of the Editorial Board, 1995-

NeuroQuantology. An Interdisciplinary Journal of Neuroscience and Quantum Physics. 1995-

Director of Collective Consciousness Research Group, Budapest Club, 1995-1998

Parallel Cultures Award, 2012

RESEARCH ACTIVITIES

1967-now Theoretical biology of Ervin Bauer, the nature of life

1973-now The nature of the Universe

1973-now Man-Universe connections

1981-now Origin of flares

1981-now Origin of solar activity

1984- now Philosophy of art

1990-now The working of human brain
1995-now Collective consciousness
2000-now The Living Universe
2000-now Philosophy, first principles of Nature
2002-now Worldviews
2004-now Thermodynamics, Non-equilibrium thermodynamics
2006-now Complexity theory
2006-now Information theory
2006-now Ancient history, cultural history
2008-now Astrobiology
2008-now Anthropic cosmology
2009-now Decision theory
2012-now Biosemiotics, origin of life
2012-now Philosophy of logic
2012-now Ecological civilization
2014-now Postmodern constructivism
2017-now Process philosophy

MAJOR INTERESTS AND ASPIRATIONS

Discovering life, the Universe, and how to develop a reenchanting ecological civilization which is in harmony with the cosmic nature of life, the Homo sapiens and the Living Universe. Working out the comprehensive theory of ecology as the science of all communities of life and their relations based on the comprehensive science of matter, life and reason, physics, biology and psychology. Developing comprehensive science of matter, life and reason on the basis of first principles. Studying the significance of worldviews and their comprehensive scientific foundations. Discovering and experiencing the full magic power of music and life. History of Ancient Eurasia. Becoming homo.

MAJOR INSPIRATIONS

Endre K. Grandpierre, Ervin Bauer, Thomé H. Fang, Alfred North Whitehead, ancient philosophy, Viktor Frankl, Arno Gruen, Erich Fromm, metaphysical poetry and dance.

VISITING SCHOLAR

- 1996 Astronomical Institute Slovak Academy of Sciences, Tatranska Lomnica, Dr. Metod Saniga; Solar Physics, Projective Geometry, Philosophy

- 2011 January-August, Visiting Professor at the Chapman University, Orange, California, USA, Prof. Menas Kafatos; Computational biology, Ervin Bauer's theoretical biology, biological extension of quantum theory

MEMBERSHIP

a) Societies

- International Astronomical Union

- Scientific and Medical Network
- b) Scientific Organizing Committees (Conference/Site/Dates)
- Astronomy and Civilization, International Conference in the Year of Astronomy, Budapest, Lóránd Eötvös University, 2009. Co-chair with Paul Davies

BOOKS EDITED

- Astronomy and Civilization in the New Enlightenment. Co-edited with Tymieniecka, Anna-Teresa. Astronomy brings the sciences and metaphysics together. Springer.

BOOKS TO BE PUBLISHED

The Helios Theory – A New Look at the Sun and Life. James Lovelock’s recommendation: “A shining book illuminated by the effulgence of our own star, the Sun. For the serious scientist a primer on Solar System Science.”

The Living Universe through the Eyes of a Solar Astronomer. The Scientific Foundation for the Ecological Civilization.
